Union Scales

The BUFFALO type of Union Scale is exceptionally popular for general purposes, as it can be used for both a platform and scoop scale. They are made with a single or double beam, have a scoop capacity of 30 lbs. x $\frac{1}{2}$ oz., and a platform capacity of 240 lbs. x $\frac{1}{4}$ lbs., and equipped with various styles of tin and brass scoops, and self-aligning bearings. The platform is 10 x 13 $\frac{3}{4}$ inches.

Dormant Type Hopper Scales

The dormant type hopper scales are widely used in grain warehouses, elevators and flour mills. They range in capacity from 60 bushels to 150 bushels. These scales are built into the floor for permanent installations. The lever systems are arranged to give large openings in the platforms for emptying the hoppers. Furnished with short iron pillars, heavy shelf and weight rack. The hopper is furnished by the purchaser.
